

# Tariff Exposure Snapshot

See what tariffs really cost you, SKU by SKU, and what to do in the next 90 days.

In two weeks we map your duty exposure by product, supplier and country of origin, test the options that cut it, and turn the answer into an operating plan: what to re-source, re-price, re-route or hold. Built by operators, working alongside your customs broker.

## WHAT WE MAP

### Exposure by SKU

Duty cost by product, supplier and country of origin.

### Classification flags

Codes worth a second look by your licensed broker.

### USMCA & origin

Qualifying content and the paperwork behind it.

### Trade zones & drawback

Foreign-trade-zone, bonded and drawback feasibility.

### Supplier options

Alternate origins, lead times and switching cost.

### Pricing & contracts

Pass-through clauses and surcharge options.

## WHAT YOU GET

- Exposure model by SKU, supplier and origin, with scenarios
- Top ten actions ranked by savings and speed
- USMCA and trade-zone feasibility screen
- Price and contract options for passing costs through

## HOW IT RUNS

|                 |                                                   |
|-----------------|---------------------------------------------------|
| <b>Days 1-3</b> | Import entries, bills of materials, supplier list |
| <b>Days 4-7</b> | Exposure model and scenarios                      |
| <b>Days 8-9</b> | Options tested and ranked                         |
| <b>Day 10</b>   | Readout and the 90-day plan                       |

## INVESTMENT

# \$7,500

Fixed fee, two weeks, for up to 500 imported SKUs. Larger catalogs are quoted. If re-sourcing is on the table, continue into the Supplier Diversification & Landed-Cost Study.

## BUILT FOR

Manufacturers, distributors and consumer brands importing a few million dollars or more a year, especially from China, Mexico and Southeast Asia.

## WHAT IT IS NOT

- Not customs brokerage or legal advice
- Classification is confirmed by your licensed customs broker
- Not an exclusion-request or lobbying service
